

## **Sterisafe DURO A3 Universal Steam**

The intelligent system  
for steam sterilization

# Sterisafe DURO A3 Universal Steam

More efficiency and effectiveness for steam sterilization

## Safe and sterile

### Ideal for the theatre and other clinical applications

- Sterisafe DURO A3 Universal Steam is an innovative sterile barrier and packaging system in conformity with DIN EN ISO 11607
- Ideal for steam sterilization of rigid instruments
- Safe storage for rigid endoscopes
- The set comprises the Sterisafe DURO A3 Universal Steam and the Toolsafe Universal Lattice Base

## Less is more

### Less expenditure, more user-friendly

- No external wrapping required
- Lower costs for disposable and materials
- No seal to change because of the proven Pasteur's loop
- No maintenance required
- Reduced weight, easy handling

No time-consuming repackaging required.

### Mehr Sicherheit, weniger Umstand

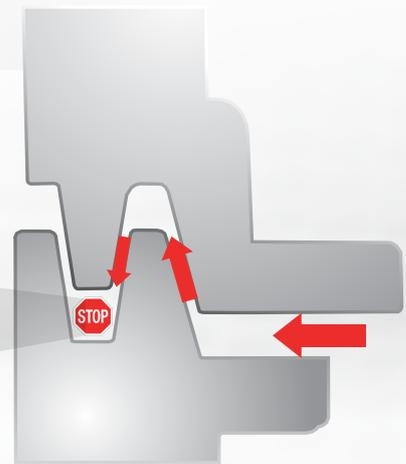

- High level of process certainty
- Suitable for steam sterilization of rigid endoscopes and instruments
- Integrated process indicators on the filter material
- Safe storage and transport
- For reuse the Sterisafe DURO A3 Universal Steam can be reprocessed in alkaline detergents at  $> \text{pH } 10$
- Stockable

## All applications under control

The Toolsafe Lattice Base A3 Universal made of silicone permits safe storage of different instruments.

## Intelligent seal principle

Sterisafe DURO A3 Universal Steam operates on the principle of **Pasteur's loop** between the lid and the base. An additional silicone seal is no longer necessary.

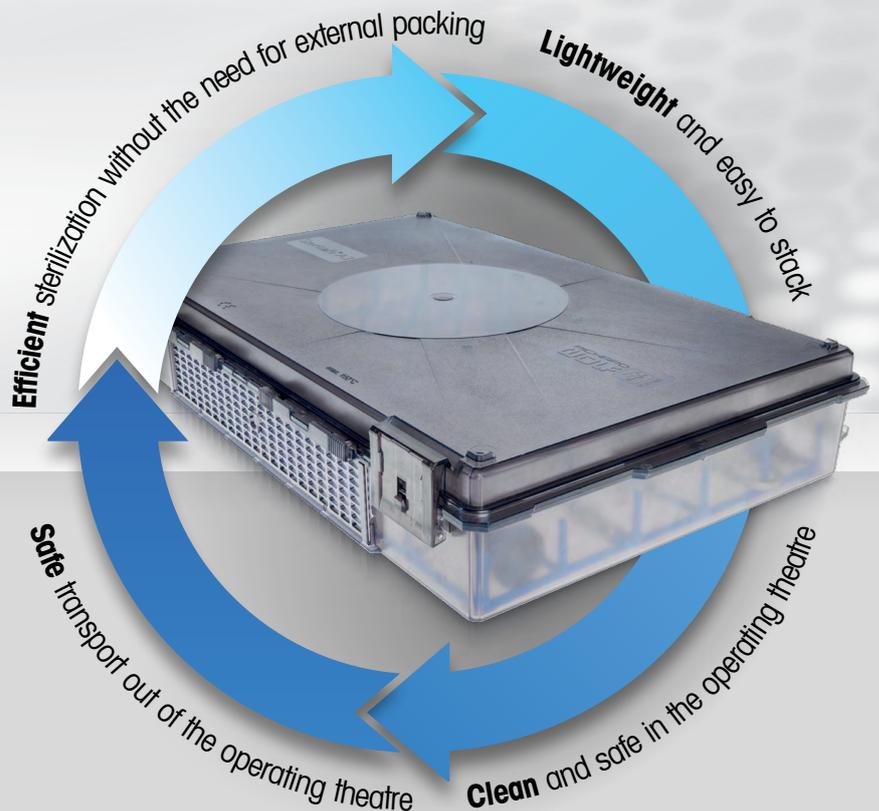

## Hard-wearing

The use of translucent, tough, high-performance plastic makes Sterisafe DURO A3 Universal Steam extremely robust.

## Sterisafe DURO A3 Universal Steam – so that everything runs smoothly

Rigid endoscopes and instruments are taken care of in every process phase. You can rely on that.
