Modular concept

The system's outstanding performance is provided by its unparalleled diversity and universality. **Graftline** offers highly specialized – and in some cases patented – technology for a huge range of surgical options.

- **Efficiency goes hand in hand.** Minimal handles and intuitive connection options for all instruments save on space and weight.
- **ACL and PCL in one instrument.** **Graftline** provides the instruments for anterior and posterior cruciate ligament plastic surgery in intelligent combinations.
- **Well prepared for optimum grip.** With the Graftline instruments and implants, the surgeon is perfectly prepared for all eventualities, for example, if reruptures occur.

A choice of fixing options

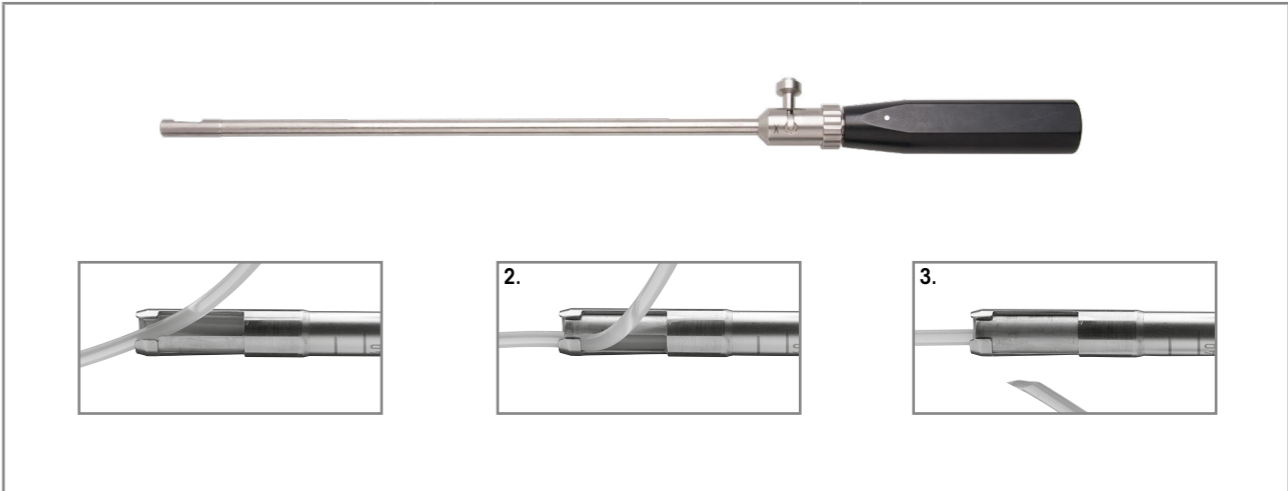

Graftline allows the ideal fixation method to be selected for the cruciate ligament graft, without the need for major adjustments. We offer a tried-and-tested range of fixing implants.

Unique perspectives

Graftline gives surgeons access to all methodological channels – from standard techniques to innovative specific solutions. BTB, BT grafts, hamstrings, allografts, oval tunnel technique, and hollow-burr technique: one system – a wealth of possibilities.

FLUID CONTROL

Irrigation and Suction Pumps

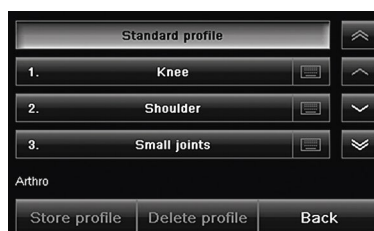

FLUID CONTROL Irrigation and Suction Pump

6.1

FLUID CONTROL Arthro 2204

FLUID CONTROL Arthro 2204

Suction and irrigation pump for arthroscopy
with automatic tube recognition

FLUID CONTROL Arthro

is a new pump system for arthroscopy and fully endoscopic spinal surgery. The particular strength of this system lies in a practical combination of high performance and a cost-effective overall concept. The new software and technical enhancements make the **FLUID CONTROL Arthro** ideal for diagnostic and therapeutic arthroscopies.

FLUID CONTROL Arthro has already been prepared for integration in core, the digital OR from Richard Wolf.

FLUID CONTROL Arthro 2204

Suction and irrigation pump for arthroscopy with automatic tube recognition

Arthro/spine suc./irrig.pump bndl
for arthroscopy **22040011**

- Comprising:
- 1 x arthro/spine suc./irrig.pump 200mmHG..... 2204001
 - 1 x irrigation tube set spike 8171223
 - 1 x tube set for vacuum, incl. filter 2206207
 - 1 x protection filter for gas filtration 4171.121
 - 1 x power cable 2440.03

Arthro/spine suc./irrig.pump bndl
with Spine Mode software module for arthroscopy and fully endoscopic spinal surgery **22040012**

- Comprising:
- 1 x arthro/spine suc./irrig.pump 200mmHG 2204001
 - 1 x Spine mode software module2204101
 - 1 x irrigation tube set spike 8171223
 - 1 x tube set for vacuum, incl. filter 2206207
 - 1 x protection filter for gas filtration 4171.121
 - 1 x power cable 2440.03

FLUID CONTROL Arthro 2204

Irrigation and suction pump for arthroscopy with automatic tube recognition

Day-patient tube set
From two interventions/patients per day:
Use the **day-patient tube set**, which comprises a day tube and a connected patient tube. The day tube remains in the pump throughout the day, while the patient tube has to be changed for each operation. The irrigation fluid bag can remain on the pump until it has been completely

used up. **This significantly reduces the amount of waste and cuts costs.**
Further tube versions are available to complement the system.
Note: The use of the day-patient tube set has not been approved for the Spine Mode application.

Irrigation			Product no.

Technical Data

FLUID CONTROL Arthro 2204

Arthro/spine suc./irrig.pump 200mmHG 2204001	
Power supply connection	100–240 VAC, 50/60 Hz
Power consumption	118 VA
Protection class to VDE 0750 / IEC 601	1
Classification	CF
Pressure range (infinite preselection)	15–200 mmHg
Delivery rate (can be preselected in 50 ml increments)	0–2 l/min
Dimensions (W x H x D)	300 x 157 x 436 mm
Weight	8.3 kg
Interfaces	USB / CAN bus (core) service interface

Universal Motor Systems

Universal Motor Systems

7.1

PowerSpeed AS1 Universal Motor System

7.2

Power Stick M5/3 and M5/0 Motor Handpieces for PowerSpeed AS1

7.3

Reusable Shaver Blades and Burrs
for Power Stick M5/3, Power Stick M5/0, and Micro Stick S1

7.4

Disposable Shaver Blades and Burrs
for Power Stick M5/3, Power Stick M5/0, and Micro Stick S1

PowerSpeed AS1

Universal motor system

The PowerSpeed AS1 motor system has been developed for universal use and provides extremely comfortable and ergonomic handling.

Quick and powerful resecting, drilling, burring, or sawing – anything is possible.

- Wide range of disposable and reusable shaver blades and burrs
- Intelligent tool detection via RFID chip
- Touchscreen makes user interface easy to operate
- Communication interface with FLUID CONTROL ArthroPump 2204 and **core nova**
- Universal use of all current Richard Wolf motor handpieces
- Wireless footswitch
- Universal use in spinal surgery, bronchoscopy, and arthroscopy

PowerSpeed AS1
Universal motor system

MOTOR CONTROL UNIT 2305
Power supply connection 50/60 Hz, 100–240 V
includes power supply cable,
CAN bus connection cable, and packaging **2305001**

Universal motor system for orthopedics and spinal surgery, for connecting
motor handpieces when working with shaver and high-speed applications,
and for connecting the Power Drill M1.

Recommended accessories		Product no.
Remote footswitch 2 pedals+2 buttons		2305100
Also:		
Power supply unit 6600403		FW8002M/08
Backup cable, WL 3m		2305300

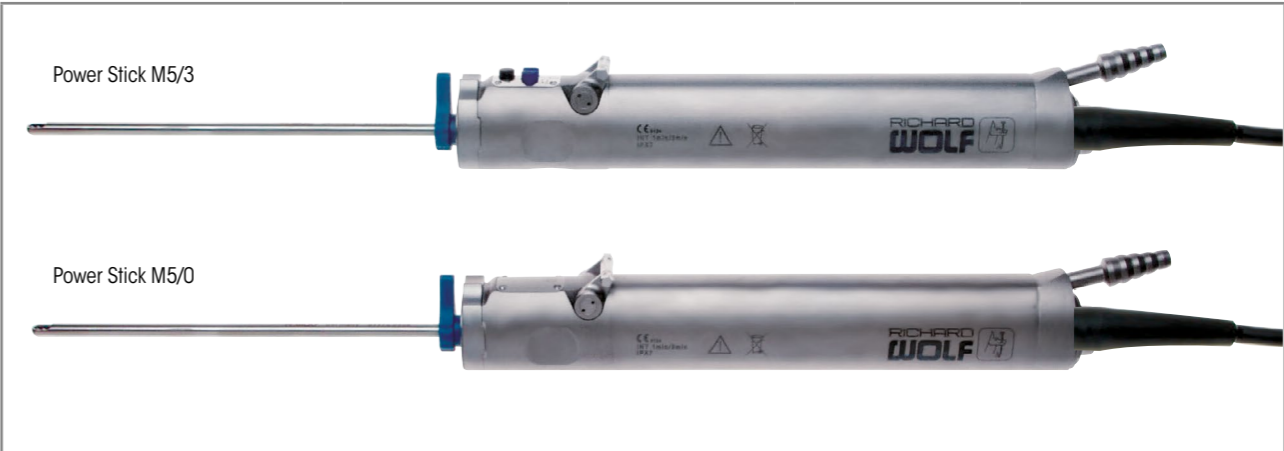

MOTOR CONTROL UNIT 2305	2305001
Power supply connection	100–240 VAC, 50/60 Hz
Power consumption	250 VA
Electromagnetic compatibility EMC to	IEC / EN 60601-1-2
Medical Devices Directive 93/42/EEC	Class IIa
Protection class to IEC / EN 60601-1 (ANSI / AAMI ES60601-1 / CAN CSA-C22.2 No. 60601-1)	I
Protection against electric shock	Type BF applied part
Degree of protection against the ingress of liquids	IP 20 (not protected)
Operating mode	Continuous operation
Degree of protection in the presence of flammable mixtures	Device is not protected against explosions (do not operate device in areas where there is a danger of explosion)
Weight	9.2 kg
Dimensions (W x H x D)	300 x 159.5 x 404 mm

Power Stick M5/3
Power Stick M5/0
Motor Handpieces for PowerSpeed AS1

For driving rotation tools with three function buttons			Ø for shaver tools	Product no.
Power Stick M5/3	with fixed connection cable, 3.0 m	Operated via button cluster and footswitch	2–6.5 mm	8995500031
Motor handpiece max. 16000 rpm	with removable connection cable, 3.0 m			89955.0003
For driving rotation tools			Ø for shaver tools	Product no.
Power Stick M5/0	with fixed connection cable, 3.0 m	Operated via footswitch	2–6.5 mm	8995500001
Motor handpiece max. 16000 rpm	with removable connection cable, 3.0 m			89955.0000

- Handpieces with/without control panel
- Up to 16,000 rpm
- For tools with a diameter of 2.5–6.5 mm
- Oscillation frequency of up to 4 Hz

Recommended accessories		Product no.
Connection cable, WL 3m	3.0 m long	8564.851
Container (wxhxd) 400x60x200mm	Holds: Instruments, for sterilization (steam and low-temperature), storage and trans- port, with instrument mat, inner dimensions (wxhxd): 400x57x200mm, outer dimensions (BxHxD): 466x77x266mm	33022

Micro Stick S1

Motor handpiece for PowerSpeed AS1

				
For driving rotation tools with one function button			Ø for shaver tools	Product no.
Motor handpiece max. 3000 rpm	with fixed connection cable, 3.0 m	Operated via the ON/OFF button	2–3.5 mm	899510001

- Mini motor handpiece for exceptional precision in small joints
- Up to 3,000 rpm
- Practical range of accessories
- For shaver tools with a diameter of 2–3.5 mm

Recommended accessories		Product no.
Container (wxhxd) 400x60x200mm	Holds: Instruments, for sterilization (steam and low-temperature), storage and transport, with instrument mat, inner dimensions (wxhxd): 400x57x200mm, outer dimensions (BxHxT): 466x77x266mm	33022

Battery-powered tools bee-system II

for all orthopaedic indications
and large bone surgery

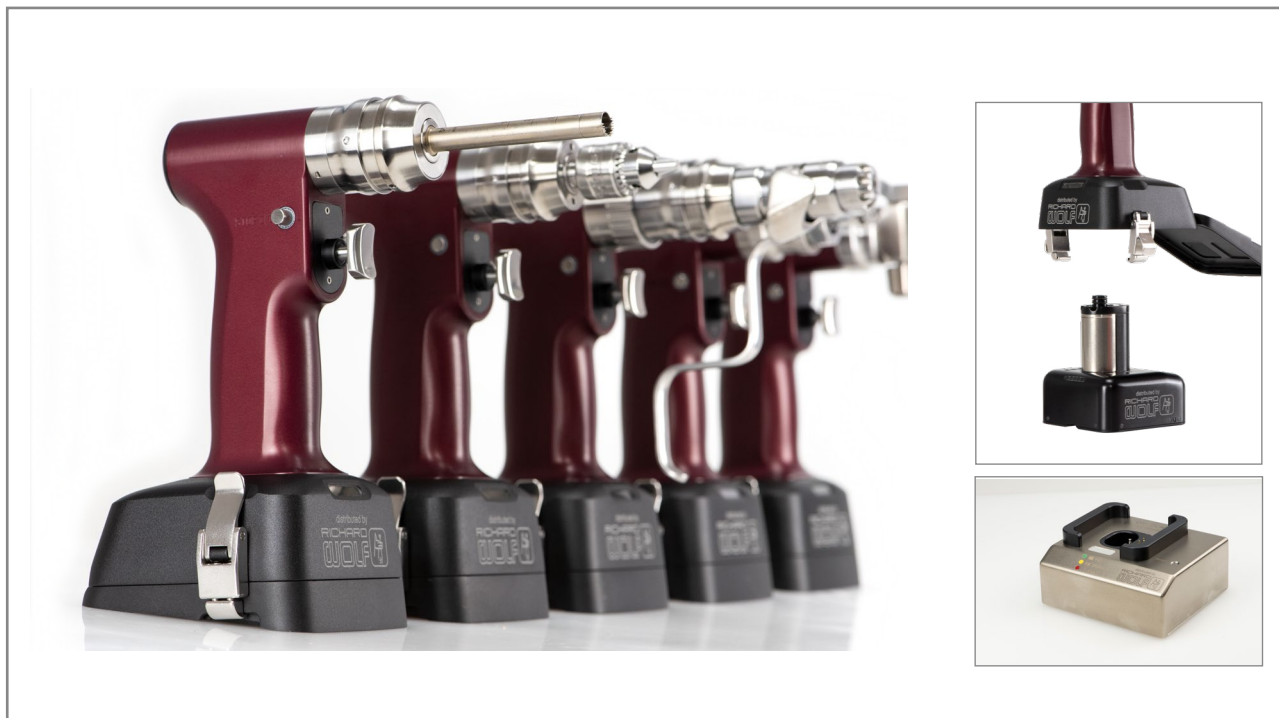

Battery-powered tools bee-system II

- 8.1 **bee-system II** Drill & Ream machine / Drill machine standard
- 8.2 **bee-system II** Oscillating Reaming machine / saws
- 8.3 **Powerpack / Battery charger / Accessories**

bee-system II

Battery-powered tools

for all orthopaedic indications and large bone surgery

Drill & Ream machine

The new bee-system II universal Drill and Ream handpiece for all orthopaedic indications and large bone surgery. Drill & Ream machine with Right / Left (CW and CCW) rotation lever for oscillating mode on / off and trigger for manual speed regulation with ring for switch Drill and Ream mode.

- With Right / Left (forward / backward rotation)
- Lock position
- Oscillating mode on / off
- Continuously adjustable rotation speed
- Drill with 2 speed ranges, switch to change from Drill to Ream mode

Drill machine standard

The new bee-system II small handpiece for all drill attachments incl. Kirschner pin driver with continuously adjustable rotation speed.

- With Right / Left (CW / CCW) rotation
- Lock position
- Continuously adjustable rotation speed

Oscillating reaming machine

The new Oscillating Reaming machine for use in anterior cruciate ligament reconstruction.

- Lock position
- Continuously adjustable oscillation speed

Oscillating saws

Oscillating saws are available in two versions:

Oscillating saw, 4° (lateral movement) for Synthes / AO saw blades and oscillating saw for Stryker sawblades.

Sagittal oscillating saw in bone surgery:

- With rotatable saw blade clamping in 45° steps (8 positions)
- Manual speed adjustment and oscillating mode
- Shift lever for operating in two different speeds
- With AO-Synthes and Stryker connection of the saw blade

Sternum saw

Sternum saw with protection sleeve and keyless chuck with continuously adjustable rotation speed and switch lever from Step I to II. Basic model can be used as reciprocating saw.

Rotate the attachment / chuck to the desired position. Locking always at 90°.

- Precise cutting guide with good visibility conditions
- Easy clamping of sawblade (no tools required)
- Use of saw blades with Stryker adaption
- Attachment of protection sleeve in 4 different positions possible (locking at 90°)
- Basic model to be used as reciprocating

Powerpack and battery charger

- 1 powerpack for all machines
- 3 chargers with charge status display

bee-system II

Drill and ream machine

for all orthopaedic indications and large bone surgery

		Product no.
beesystemII drill & ream machine	with Right / Left (CW and CCW) rotation lever for oscillating mode on / off and trigger for manual speed regulation with ring for switch Drill and Ream mode	F-31-100-00

Accessories see page Ortho132-Ortho133 / Ortho142

- With Right / Left (forward / backward rotation)
- Lock position
- Oscillating mode on / off
- Continuously adjustable rotation speed
- Drill with 2 speed ranges, switch to change from Drill to Ream mode

Technical data F-31-100-00	
Handpiece dimensions (without attachment)	162 x 93 x 198 mm
Weight of handpiece with powerpack	1850 g
Continuously adjustable rotation speed	0 - 1000 rpm (drill mode) / 0 - 250 rpm (ream mode)
Cannulation	Ø 4.3 mm
Protection class	B, EN 60601-1
Power supply	Internal battery

VI121 || Subject to modifications. Please note that some products may not be available in all countries. For more detailed information, please consult with your contact partner or directly with Richard Wolf GmbH.

bee-system II

Drill machine standard

for all drill attachments incl. Kirschner pin driver with continuously adjustable rotation speed

		Product no.
beesystemII drill machine standard		F-31-150-00

Accessories see page Ortho132-Ortho133 / Ortho142

- With Right / Left (CW / CCW) rotation
- Lock position
- Continuously adjustable rotation speed

Technical data F-31-150-00	
Handpiece dimensions (without attachment)	137 x 93 x 197 mm
Weight of handpiece with powerpack	1660 g
Continuously adjustable rotation speed	0 - 1000 rpm
Cannulation	Ø 4.3 mm
Protection class	B, EN 60601-1
Power supply	Internal battery

beesystemII sagital oscillating saw, 4°	(lateral movement) with connection for AO-Synthes saw blades F-31-300-00
beesystemII sagital oscillating saw	with connection for Stryker sawblades F-31-310-00
Accessories see page Ortho142	

- With rotatable saw blade clamping in 45° steps (8 positions)
- Manual speed adjustment and oscillating mode
- Shift lever for operating in two different speeds
- With AO-Synthes and Stryker connection of the saw blade

Technical data F-31-300-00 / F-31-310-00	
Handpiece dimensions (without attachment)	166 x 111 x 211 mm
Weight of handpiece with powerpack	1760 g
Continuously adjustable rotation speed 0 - 9000 cpm (Step 1) / 0 - 11000 cpm (Step II)	0-9.000 Zy./min (Stufe I) / 0-11.000 Zy./min (Stufe II)
Protection class B, EN 60601-1	B, EN 60601-1
Power supply Internal battery	Interner Akku

bee-system II

Sternum saw

	
Product no.	
beesystemII sternum saw	with keyless sternum attachment (F-30-400-05) F-31-601-00
Accessories see page Ortho142	

- Precise cutting guide with good visibility conditions
- Easy clamping of sawblade (no tools required)
- Use of saw blade with Stryker adaption
- Attachment of protection sleeve in 4 different positions possible (locking at 90°)
- Basic model to be used as receprocating

Technical data F-31-601-00	
Handpiece dimensions (without attachment)	185 x 111 x 206 mm
Weight of handpiece with powerpack	1750 g
Continuously adjustable rotation speed	0 - 7500 cpm (Step 1)/0 - 10000 cpm (Step 11)
Protection class	B, EN 60601-1
Power supply	Internal battery

bee-system II

One powerpack for all machines

		Product no.
Power Pack	Powerpack, universal drive unit for use with all bee-system handpieces, newest Li-Ion technology	F-30-900-00

also: Battery charger see page Ortho141

- 1 powerpack for all handpieces
 - Includes control unit, battery, electronics, and motor – united in one powerpack
 - Automatic recognition of the performance parameters according to the used handpiece
 - Unique durability, no need to sterilize delicate components
- Latest battery technology – long lifetime, no memory effect
 - Display for battery charging status: green, orange, red (discharged)
 - White LEDs for additional illumination of the OR field

Technical data F-30-900-00	
Dimensions	89 x 87 x 102 mm
Weight	760 g
Type	Li-ion
Max. voltage	16.8 V
Operating voltage (rated voltage)	14.4V
Capacity	2.1 Ah
Typical charging time period	< 90 min

bee-system II

Battery charger

	Product no.
Battery charger (1 charging slot)	F-30-900-50
Battery charger (2 charging slots)	F-30-900-51
Battery charger (4 charging slots)	F-30-900-52

- All charging units indicate the charging status of the powerpacks.
- In addition to the charging status at the powerpack, the charger displays the charging capacity per powerpack slot.

Technical data F-30-900-50/51/52	
Dimensions	1 charging slot: 157 x 140 x 79 mm 2 charging slots: 240 x 190 x 130 mm 4 charging slots: 520 x 190 x 130 mm
Weight	1 charging slot: 1740 g 2 charging slots: 4939 g 4 charging slots: 8700 g
Type	Li-ion battery charger
Input	100 - 240 V AC 50 - 60 Hz 0,9 A
Output	16,8 V DC 2,0 A

bee-system II

Accessories

		
Accessories for bee-system II		Product no.
	Tray with lid, for 1 machine without rinsing set, reusable	F-31-910-13
	Tray with lid, for 2 machines without rinsing set, reusable	F-31-910-18
	Rinsing set reusable	F-30-910-40
	Cleaning brush set reusable	F-30-910-50
	Hi-tech oil pen	F-30-900-61
	Sterile funnel for insertion of powerpack F-30-900-00 under sterile conditions, reusable	F-30-900-20
	Lubrication service frame reusable	F-30-900-10
	Poag cable for charging units for connecting F-30-900-50 or F-30-900-51 or F-30-900-52 to potential equalization	F-30-900-57
